

**Imagine a luminaire
that is a true friend of the environment.**

**Dreamscape's Nalu performs a dual role:
at dusk and through the evening, Nalu's
LED white light illuminates pathways
and fauna in a popular resort.**

**When the crowds have all gone to bed,
Nalu's 'habitat-correct' colored LED shines
a specific wavelength in order
to help the Loggerhead turtle find its
way to the ocean.**

**Saving energy, saving maintenance,
saving species.**

**We call this new category
Environmental Lighting**

dreamscape
LIGHTING MFG., INC.

Habitat-correct illumination: Reducing our carbon footprint while keeping our night time sky visible. We were the cause, now we can be the answer to reducing pollution.

Our capabilities go beyond endangered turtle species.

Here are four Dreamscape fixtures whose environmental friendliness isn't limited to our earthly environment, but goes beyond to our light-polluted night skies.

Eco-responsible, low-energy consumption, low maintenance, extreme weather durability, and dark sky friendly outdoor fixtures from Dreamscape Lighting.

LED Area Luminaires and Bollards

Illume by Dreamscape offers energy saving LED lighting in a stylish post or base mount. Multiple lighting tasks are accomplished utilizing either a white or RGB LED strip. Night sky pollution is avoided thanks in part to Illume's subtle LED RGB colors, and the beam restrictions of the Delta enclosure. Wet location.

Nalu helps more than turtles.

Nalu is not only an eclectic, award winning landscape fixture, it's also capable of providing dual 8W LED clusters that enable a more subdued lighting scheme when the crowds have gone. Energy conscious resorts, hotels, and residences can benefit from the duality of Nalu. Great white LED light during the evening hours - special 'dark sky' LED colors for security and 'migrating species' in the wee hours. All in a solid brass fixture that beams the light down, and not up. Wet location.

Nalu's cut-off prevents light leakage above the fixture height. Add LED as your lamp source and you have a true eco-fixture.

Dreamscape Lighting will continue to design and manufacture outdoor lighting fixtures that define Dreamscape's commitment to the environment - both on our planet and above it.

LED Wall Mount Fixtures

The Slim Mesa LED wall mount fixture adds an elegantly unobtrusive touch to architectural planes as it provides shielded LED down light with a 2750K, 3W LED Light Engine. Wet location.

Light Wedge LED is a Dreamscape classic with an energy saving 2750K, 6W LED cluster. The solid brass rustic design keeps the light firmly grounded. Wet location.

Mesa is now available in an energy conscious LED version. Mesa has been specified in hundreds of applications, due in part to the variety of its metal-etched finishes. Now you can add LED to its long list of features. Wet location.

Dreamscape fixtures are manufactured with harsh weather-resistant components and feature a wide variety of metal-etched finishes.

50,000 hour LED lamps are available in a variety of color temperatures (K) and RGB which includes LED white light, Turtle-Saving red light, and Dark Sky blue light.

Shielded beams, dimmable ambient and restricted up light help to alleviate light pollution in urban and rural areas and energy costs to your bottom line.

LED Directional Fixtures

Dreamscape's Lunar III-LED provides discreet accent illumination. Made from solid brass and available with 3W LED lamping. Wet location.

The dual lamp housings of the versatile Dual Lunar V-LED fixture enables fixing the light on two different objects. The classic LunarV-LED (shown below) boasts a small silhouette that blends in with any environment. Wet location.

Dreamscape's LunarV-LED

Dreamscape has devised a method of dedicating LED light to specific wavelengths:
 LED White
 LED Turtle Saving Red
 LED Dark Sky Blue

Specifying Dreamscape Environmental Lighting

***DLED-47 NOTE:**

6" - 42": Base Mount Only
 45" - 60": Base Mount with 12" Direct Burial
 63" - 96": Base Mount with 18" Direct Burial

ILLUME LED

Item No.	Length in Inches	Material	Color Temp.	Mounting / Options / Finishes
DLED-47* Illume Classic	36 (actual 36.5")	Acrylic	2700	BC = Base Cover GC = Grass Sleeve ST = Support Stakes (3)
DLED-48 Illume Delta	60 24", 36" 48", 60"	ST Steel BR Brass	2700 2700K 3100K RGB	BM = Base Mount PM = Post Mount GM = Ground Mount Optional base mount cover for surface mounting
Custom sizes available				
DLED-49 Illume Ionic	18 18" (for 24", 36" column) 36" (for 48" column) (Column height 24", 36", 48")	Solid Brass with Acrylic	3100 2700K 3100K RGB	8 = Copper Plate (see finishes below)

NALU LED

Item No.	Material	Lamp	Lamp Life	Finishes
DL-181	Steel	1-8W LED 2700K Cluster	25,000 hrs.	Rust Bronze or Black Iron
DL-181-2LT	Steel	2-8W LED 2700K Clusters	25,000 hrs.	Rust Bronze or Black Iron
DL-183	Solid Brass	1-8W LED 2700K Cluster	25,000 hrs.	1-13 Standard Brass Finishes
DL-183-2LT	Solid Brass	2-8W LED 2700K Clusters	25,000 hrs.	1-13 Standard Brass Finishes

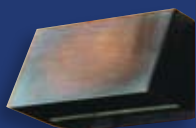

MESA LED

Item No.	Material	Lamp	Lamp Life	Finishes
DL-126-LED	Cast Brass	1-3W LED 2750K Cluster	25,000 hrs.	1-13 Standard Brass Finishes

SLIM MESA LED

Item No.	Material	Lamp	Lamp Life	Finishes
DL-127-LED	Cast Brass	1-3W LED 2750K Cluster	25,000 hrs.	1-13 Standard Brass Finishes

LIGHT WEDGE LED

Item No.	Material	Lamp	Lamp Life	Finishes
DL-131-S-LED	Solid Brass	1-6W LED 2750 Cluster	25,000 hrs.	1-13 Standard Brass Finishes
DL-131-L-LED	Solid Brass	1-6W LED 2750 Cluster	25,000 hrs.	1-13 Standard Brass Finishes

131-S Dimensions: 2-3/4"H x 3-1/4"W x 2"D 131-L Dimensions: 2-3/4"H x 4-1/2"W x 2"D

LUNAR III / LUNAR V LED

Item No.	Description	Lamp	Lamp Life	Finishes
DL-133-LED	Lunar III	1-3W LED 2750K Engine	25,000 hrs.	1-13 Standard Brass Finishes
DL-190-LED	Lunar V - 1 light	2-3W LED 2750K Engine	25,000 hrs.	1-13 Standard Brass Finishes
DL-191-LED	Lunar V - 2 light	4-3W LED 2750K Engines	25,000 hrs.	1-13 Standard Brass Finishes

Lunar V offered in stake mount and box mount
