

MICRO WELL LIGHT In Grade Fixed or Adjustable Luminaire

A MINIATURE IN GRADE RECESSED FIXED OR ADJUSTABLE UP LIGHT

Lamping: MR-11 or LED

Cat. No: DL-130 - _____ - _____ - _____ - _____ (Fixed)
 DL-130 - Adj _____ - _____ - _____ - _____ (Adj.)

Type: _____ / Project: _____

Date: _____

Fixture Description:

The MICRO WELL LIGHT can create dramatic lighting effects with its 20 watt MR-11 lamp or 3 watt LED. Its small scale allows it to be placed into areas normally unavailable to light fixtures because of their size. The MR-11 or LED light source is recessed below dual stacked honeycomb louvers to minimize surface brightness. The decorative trim plate that mounts flush with the rest of the surface is available in various metal etched finishes to complement different types of textures, colors, surfaces and architectural compositions.

Specifications:

Construction: Solid brass rough-in housing with brass lamp compartment and brass top plate. Housing has two 1/2" male nipples supplied for conduit or PVC connection.

Dimensions: Height: 5"
 Cone Dia.: 2"
 Top Dia.: 3"

Lamp: 12 volt, 20 watt DC base MR-11 with front glass, or 3 watt 12 volt LED 2700K (other color temps available).

Electrical Requirements: Requires remote 12 volt source.

Applications: Uplighting architectural structures, statuary, trees, or placement in pedestals below columns.

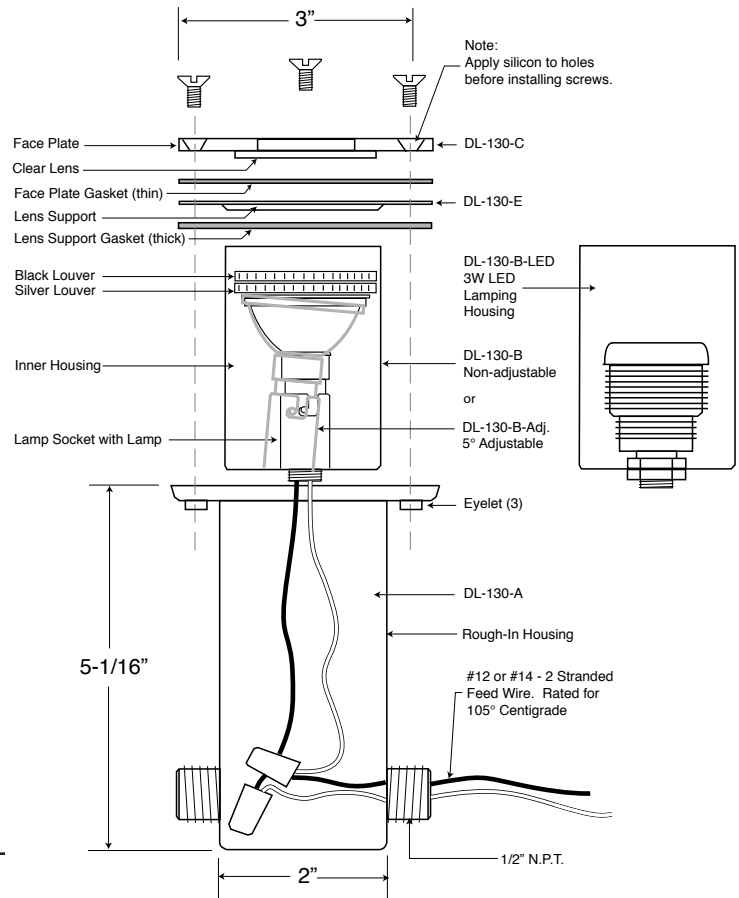

Labels:

ETL Listed Damp Location - Conforms to UL1598, Certified Canada CSA 22.2

Options:

Diffusers: Diffusion and linear lens. See ordering chart below.
